

姓名: 潘维超 panweichao01@outlook.com

电话: 15552885131 籍贯: 山东济南 政治面貌: 中共党员
学生工作: 华为昇腾济南站 HAG-Leader、泰迪工作室室长、图书馆志愿者协会主席

教育背景

山东建筑大学计算机与人工智能学院 人工智能专业/本科 2022-2026

● 学业成绩: GPA 3.99/5 成绩排名 1/36 综测排名 1/36

● 英语水平: CET4-519

本科导师: 刘兴波 (2023-2026) , 研究生导师: 方乐缘 (图像处理、具身智能)

科研经历 (引用: 101, h指数: 6) (仅列举重要的前20篇论文)

[1] Weichao Pan, Jiaju Kang, Xu Wang, Chengze Lv, Xuening Zhang, Xingbo Liu*. MedCTM: A CNN-Transformer-Mamba Hybrid Network for Medical Image Classification, *Information Processing & Management*, (2026). (JCR Q1, 一区TOP, CCF-B)

[2] Weichao Pan†*, Gongrui Wang†, Chengze Lv†, Zhengxiang Ma, Xu Wang. TRIDENet: A Noise-Robust and Boundary-Aware Detection Framework for Industrial Surface Defects. *Optics and Laser Technology*, (2026). (JCR Q1, 二区TOP)

[3] Weichao Pan*. TET Loss: A Temperature-Entropy Calibrated Transfer Loss for Reliable Medical Image Classification. *Journal of Imaging Informatics in Medicine*, (2026). (JCR Q1, 二区)

[4] Weichao Pan*†, Xu Wang†, Chengze Lv, Ruida Liu, Gongrui Wang. Kolmogorov–Arnold Guided Local–Global Attention for Medical Image Classification. *Journal of Imaging Informatics in Medicine*, (2026). (JCR Q1, 二区)

[5] Weichao Pan*, Xu Wang. MedVK: Efficient medical image classification via decoupled vision Kolmogorov-Arnold Networks. *Pattern Recognition Letters*, (2026). (JCR Q2, 三区, CAAI-B, CCF-C)

[6] Weichao Pan*, Xu Wang. MiT Loss: Medical Image-aware Transfer-calibrated Loss for Enhanced Classification. *Measurement Science and Technology*, (2025). (JCR Q1, 三区, CIS-T2)

[7] Weichao Pan*, Jiaju Kang, Xu Wang, Gongrui Wang. An Ultra-Efficient Dual-Domain Network for Pumping Units Fault Diagnosis. *Measurement Science and Technology*, (2025). (JCR Q1, 三区, CIS-T2)

[8] Weichao Pan*, Xu Wang, Wenqing Huan. Real-time dynamic scale-aware fusion detection network: take road damage detection as an example. *Journal of Real-Time Image Processing*, (2025). (JCR Q2, 三区, CAAI-C)

[9] Weichao Pan, Jianmei Lei, Xu Wang, Chengze Lv, Gongrui Wang, Chong Li*. DAPONet: A Dual Attention and Partially Overparameterized Network for Real-Time Road Damage Detection. *Applied Sciences*, (2025). (JCR Q2, 四区)

[10] Weichao Pan*, Xu Wang, Chengze Lv. TPVG-YOLO: Twined-Path Convolution and Vision-Gated Fusion for Efficient PCB Defect Detection. *Signal, Image and Video Processing*, (2025). (JCR Q3, 四区, CAAI-C)

[11] Weichao Pan†, Ruida Liu†, Chengze Lv, Puyu Han, Luqi Gong, Xu Wang*. Learning Class-Conditional Temperature with Entropy Alignment for Medical Image Classification. *2026 IEEE International Conference on Acoustics, Speech, and Signal Processing (ICASSP 2026)*. (CCF-B, CORE B)

[12] **Weichao Pan**, Xu Wang, Chengze Lv, Zicheng Lin, Gongrui Wang, Xuening Zhang, Yi Sun, Xingbo Liu*. HVLO-YOLO: An Ultra-Lightweight Detection Model for High-voltage Line Obstacles. *The 36th British Machine Vision Conference (BMVC 2025)*. (CCF-C, CORE A)

[13] **Weichao Pan**, Bohan Xu, Xu Wang, Chengze Lv, Shuoyang Wang, Zhenke Duan*, Zhen Tian. YOLO-FireAD: Efficient Fire Detection via Attention-Guided Inverted Residual Learning and Dual-Pooling Feature Preservation, *21st International Conference on Intelligent Computing (ICIC 2025)*. (CCF-C)

[14] Xu Wang[†], **Weichao Pan**[†], Ruida Liu, Keyan Jin*, Zhen Tian. SM-CBNet: A Speech-Based Parkinson's Disease Diagnosis Model with SMOTE-ENN and CNN_BiLSTM Integration, *21st International Conference on Intelligent Computing (ICIC 2025)*. (CCF-C)

[15] Zicheng Lin, **Weichao Pan***. YOLO-ROC: A High-Precision and Ultra-Lightweight Model for Real-Time Road Damage Detection. *Measurement Science and Technology*, (2025). (JCR Q1, 三区, CIS-T2)

[16] Chengze Lv, **Weichao Pan***. LUOD-YOLO: A Lightweight Underwater Object Detection Model Based on Dynamic Feature Fusion, Dual Path Rearrangement and Cross-scale Integration. *Journal of Real-Time Image Processing*, (2025). (JCR Q2, 三区, CAAI-C)

[17] Yuhang Wang, Shuoyang Wang, Chengze Lv, Gongrui Wang, Zicheng Lin, Zhengxiang Ma, **Weichao Pan***. MAGE-UNet: Progressive skip-feature refinement for medical image segmentation. *Signal, Image and Video Processing*, (2026). (JCR Q3, 四区, CAAI-C)

[18] **潘维超**, 邹文庆, 刘兴波*, 王旭。基于招聘大数据与机器学习的数字人才需求与能力模型构建[J], *软件导刊*, 2025. (CCF-T3, 科技核心)

[19] Jiaju Kang, **Weichao Pan**, Tian Zhang, Ziming Wang, Shuqin Yang, Zhiqin Wang, Jian Wang, Xiaofei Niu*. Correcting Factuality Hallucination in Complaint Large Language Model via Entity-Augmented, *2024 International Joint Conference on Neural Networks (IJCNN 2024)*. (CCF-C)

[20] Jiaju Kang[†], Puyu Han[†], Xu Wang[†], **Weichao Pan**, Ruida Liu, Chenggang Zhang, Keyan Jin*. PolicySimEval: A Benchmark for Evaluating PolicyOutcomes through Agent-Based Simulation, *22st International Conference on Intelligent Computing (ICIC 2026)*. (CCF-C)

[21] 一种工业油井设备故障诊断方法、系统、设备及介质 (**第一学生作者, 发明专利**)

多项工作已完成, 目前一作及通讯: *Pattern Recognition* (一区TOP, CCF-B)、*Information Fusion* (一区TOP)、*Neural Networks* (二区TOP, CCF-B)、*Optics and Laser Technology* (二区TOP)、*Journal of King Saud University Computer and Information Sciences* (二区)、*Computers and Electrical Engineering* (二区)、*Cluster Computing* (三区)、*Pattern Recognition Letters* (三区,CCF-C)、*The Computer Journal* (四区, CCF-B) 等在审。

担任NeurIPS等CCF-A会议以及Information Processing & Management、IEEE Transactions on Industrial Informatics、Engineering Applications of Artificial Intelligence、Ocean Engineering等TOP期刊**审稿人**, 累计审稿**200**余次。

2026年被Institute of Physics (IOP)英国物理学会出版社评为**Trusted Reviewer**。

获奖情况

在校期间总计获**80**余项**教育部榜单内省级国家级奖项**。

2023-2024年度**国家奖学金** (学院第一个大二学年获此奖) 。

2024-2025年度**校长奖章** (全校仅有七个本科生获此奖) 。
